It is recommended ordering sizes three times larger than your boot/shoe size.

CONSTRUCTION SAFETY

Rain Gear

CONSTRUCTION SAFETY

### Drivers Gloves

#### Premium Grain Goatskin Leather Driver Gloves

Premium grain goatskin leather gloves are very soft and liquid resistant. Shirred elastic wrist provides a secure fit and helps keep dirt and debris out of the glove. Flexible keystone construction thumb. Cotton hem color coded for easy size identification.

### Workers Gloves

#### Premium Grain Pigskin Thinsulate Lined Leather Palm Gloves

Premium grain pigskin leather palm gloves with warm 100 gram Thinsulate™ lining. Reinforced fingertips and knuckle strap for extra protection where you need it most. Canvas back. 2 1/2" safety cuff. Wing thumb construction. Cotton hem is color coded.

### Non-Slip Black Dot

#### PVC Dotted String Knit Glove

West Chester standard string knit gloves with PVC dots on both sides are ideal for light duty tasks. Dots on both sides extend the life of the glove and provide better grip. Elastic knit wrist helps keep dirt and debris out of the glove.

### Brown Jersey

#### 100% Cotton Premium Brown Jersey Gloves

Premium 100% cotton gloves are great for general-duty and light abrasion application.

### Leather Palm

#### Split Leather Palm with Canvas Back

Split Leather Palm with Canvas Back Work Gloves feature a leather palm with a knuckle strap for durability and protection. Durable split cowhide leather palm and fingertips with canvas back make these gloves great for general construction jobs and household chores.

### Blue Tuffcoat

#### Cotton Knit Conforming Glove with Rubber on one Side

Coated glove; Heavy weight knit is extremely durable, and is ergonomically molded to the contours of the hand; Dipped rubber palm offers excellent cut and slip resistance; Applications: General industrial work, Agricultural, Construction, Material Handling.

### Latex Gloves 100/box

#### Westchester Latex Exam Gloves Posi Shield

Medical/Exam Grade Disposable Latex Gloves stretch for snug sensitive fit and maximum dexterity. Ambidextrous design fits right or left hand. Loose fit around wrist for comfort. Rolled cuff prevents tearing when pulling off and on. Gloves are 5 mil

### Nitrile Gloves

#### Westchester Latex Exam Gloves Posi Shield

Medical/Exam Grade Disposable Latex Gloves stretch for snug sensitive fit and maximum dexterity. Ambidextrous design fits right or left hand. Loose fit around wrist for comfort. Rolled cuff prevents tearing when pulling off and on. Gloves are 5 mil

### Welding Gloves

#### Westchester Welding Gloves

West Chester welding gloves could be used for a variety of conditions and situations. This particular glove is made with cowhide, leather, offers a gauntlet cuff, with split leather grade and wing thumb.

### Short Cuff Dipped Rubber Gloves

#### Black Stallion Gloves: Men's 5100 S Black PVC-Dipped Synthetic Work Gloves

The Black Stallion gloves are synthetic and PVC-dipped to provide a barrier between your sensitive skin and harsh work environments. The knit wrists hug your skin to ensure minimal slippage and maximum comfort.

### Workers Gloves

#### Cotton Knit Conforming Glove with Rubber on one Side

Coated glove; Heavy weight knit is extremely durable, and is ergonomically molded to the contours of the hand; Dipped rubber palm offers excellent cut and slip resistance; Applications: General industrial work, Agricultural, Construction, Material Handling.

### Mechanic Gloves

#### Cotton Knit Conforming Glove with Rubber on one Side

Coated glove; Heavy weight knit is extremely durable, and is ergonomically molded to the contours of the hand; Dipped rubber palm offers excellent cut and slip resistance; Applications: General industrial work, Agricultural, Construction, Material Handling.

### Rubber Gloves Long Cuff 10"

#### 10" PVC Rubber Gloves

PVC gloves offer chemical resistance to a variety of acids and oils and are available in various finishes and lengths.

### Rubber Gloves Longer Cuff 14"

#### 14" PVC Rubber Gloves

PVC gloves offer chemical resistance to a variety of acids and oils and are available in various finishes and lengths.

### Worker's Gloves

#### AccuFlex™ Cut-Resistant Nitrile-Coated Gloves

Nitrile-coated gloves are made of 13-gauge high-performance polyethylene. Rated ANSI A3 and EN388 4544 for light to medium cut hazards.

Whatever your industry, whatever the hazards to your workers' knees, shins, insteps, feet or toes, Ellwood Safety has the protection you need.

**Protect Toes, Feet, Insteps,  
Shins, and Knees Comfortably!**

**Ellwood 401-5 foot-shin guards with side shield**

Maximum resistance to impact and penetration. Built of aircraft quality aluminum alloy. 12" high, 5" wide at top, 3" wide at bottom. Padded top and bottom to absorb shock and provide comfort is attached at top and bottom with 5/8" web straps. Moisture will not cause deterioration. Aluminum shield added to each side of No. 400 guard.

**FOOT GUARDS WITH RUBBER TOE**

Foot guards fit any shoe (no rights or lefts), with 5" (average) and 5-1/2" (large) widths. They are light enough to be worn comfortably all day.

16-ga. Carbon Steel (.059"), 3-1/8 lb./pair

**ALUMINUM ALLOY SHIN-INSTEP GUARDS**

Shin guard with knee guard attached with web, sponge rubber hinge. Knee guard 5-3/4" high, 6-1/4" wide, .081" thick; full guard 18-1/2" high.

Alluminum Alloy Shin Guard (.081"), 1-1/2 lb./pair

**PLASTIC KNEE-SHIN GUARDS**

Combines the shin guard above attached to a knee guard with web, sponge rubber hinge. Knee guards 5-1/2" high, 6-1/2" wide, .140" thick; full guard 18" high.

Polypropolene Plastic 2-1/2 lb./pair

**METATARSAL GUARDS**

Ellwood Safety's Metatarsal Guard is designed to be worn with most lace types of Safety Toe Shoes to provide comfortable low cost metatarsal protection.

9 oz./pair

## AIR-PURIFYING RESPIRATORS

### 5500 Series Low Maintenance Half Mask

The North 5500 Series incorporates the comfortable and efficient design of the popular 7700 Series half mask with the low cost and convenience of a disposable. All parts are replaceable, extending the useful life of the respirator.

**Features:**

- Made of an extremely soft non-allergenic elastomer for comfort and fit. Contoured sealing flange eliminates discomfort caused by pressure points on facial nerves. Design of nose area provides excellent comfort and fit.
- Low dead air space improves worker comfort by limiting re-breathing of exhaled air.
- Direct cartridge to facepiece seal minimizes replacement parts and simplifies maintenance.
- Three overlapping sizes comfortably fit most users.
- North 5500 Series Half Masks are compatible with all North cartridges, filters and accessories.

550030M HALF MASK SHOWN

Part #	Description	Packaging
550030S	5500 Series Half Mask (Small)	1 per package
550030M	5500 Series Half Mask (Medium)	1 per package
550030L	5500 Series Half Mask (Large)	1 per package
77BAG	Carrybag for Half Mask	1 per package

### 5400 Series Low Maintenance Full Facepiece

The North 5400 Series provides the comfort and protection you would expect from North at an unbeatable price. No other full facepiece in its price range offers such quality, engineering and attention to detail. Weighing only 14 oz., the 5400's lightweight design offers a level of comfort that ensures greater worker acceptance. Plus, its facepiece seal is made from a soft, pliable elastomer material with high chemical resistance to assure excellent comfort, fit and performance.

**Features:**

- Each facepiece comes with three peel-away windows, six respirator wipes and a storage bag.
- Oral nasal cup reduces fogging and lessens dead air space to improve worker comfort by limiting re-breathing of exhaled air.
- Chin cup helps to position the facepiece properly.
- Hard-coated polycarbonate lens offers an over 200° field of vision, provides excellent optics, is scratch resistant and meets ANSI standards for impact and penetration resistance.
- Two overlapping sizes, small and medium large, will comfortably fit most users.
- With many of the same components of the 7600 Series facepiece, replacement part inventory will be reduced.
- North 5400 Series Full Facepieces are compatible with all North cartridges and filters.

54001 FULL FACEPIECE SHOWN WITH 7581P100 CARTRIDGES

Part #	Description	Packaging
54001	5400 Series Full Facepiece (Medium/Large)	1 per package
54001S	5400 Series Full Facepiece (Small)	1 per package

76BAG FOR FULL FACEPIECE

### Accessories for 5400 Series Full Facepiece

Part #	Description	Packaging
80100	Eyeglass frame. Plastic no lenses	1 per package
760023	Eyeglass frame. Metal no lenses	1 per package
80836A	Peel-Away Windows (3 Windows per assembly)	5 per package
80944	Anti-fog Wipes	10 per package
76BAG	Carrybag for Full Facepiece	1 per package

## Gas & Vapor Cartridges

North offers an extensive line of gas and vapor cartridges and particulate filters to satisfy numerous industrial applications. All North cartridges and filters are approved with all North air-purifying half masks and full facepiece respirators. One line of cartridges and filters will simplify your inventory. Air-Purifying Respirators with cartridges provide respiratory protection against gases and vapors by using sorbents to purify the inhaled air. Cartridges without filters do not remove dusts, fibers and other particles. North has developed the ezGuide™ software program designed to help the user develop change schedules for North gas and vapor cartridges. ezGuide will also determine the appropriate types of respiratory and hand protection required.

### Gas & Vapor Cartridges and Combination Gas and Vapor Cartridges with P100 Particulate Filters

Part #	Color Code	Description
75SC	Olive Defender™	Multi-Purpose Cartridge for Organic Vapors Chlorine Hydrogen Chloride Sulfur Dioxide Hydrogen Sulfide (Escape) Hydrogen Fluoride Chlorine Dioxide Ammonia Methyamine and Formaldehyde

7582P100	White/Magenta	Above with P100 Particulate filter (99.97% Minimum Filter Efficiency)
N75003	Yellow	Organic Vapor Chlorine Hydrogen Chloride Sulfur Dioxide Hydrogen Fluoride Chlorine Dioxide Cartridge
7583P100	Yellow/Magenta	Above with P100 Particulate Filter (99.97% Minimum Filter Efficiency)
N75004	Green	Ammonia Methylamine Cartridge
7584P100	Green/Magenta	Above with P100 Particulate Filter (99.97% Minimum Filter Efficiency)
N750052	Olive	Mercury Vapor Chlorine Cartridge with End-of-Service-Life indicator (ESLI for mercury vapor)
75852P100	Olive/Magenta	Above with P100 Particulate Filter (99.97% Minimum Filter Efficiency)

## Particulate Filters and Accessories

Air Purifying Respirators with filters provide respiratory protection against aerosols by removing dusts, mists, fumes, fibers and other particles. Filters do not remove gases or vapors, or correct for oxygen deficiency.

End of service life for filters is normally determined by the increase in breathing resistance sensed by the user. When it becomes difficult to breathe comfortably, the filters should be replaced. R95 filters are limited to a maximum of 8 hours use when used in atmospheres containing oil.

### Accessories for Cartridges and Filters

Part #	Description
N750015	Filter Holder for 7506N95 7506N99 and 7506R95 filters. Requires N750027 Seal Check/Filter Cover.
N750027	Seal Check/Filter Cover for 7506N95 7506N99 and 7506R95 filters. Attaches to Gas and Vapor cartridges. For filter use only use N750015 Filter Holders.
N750029	Shower Cap for 7580P100 Filter. Protects filter during abatement using water orduring decontamination.
N750035	Adapter for assembly of a 75FFP100 Pancake Filter to a gas and vapor cartridge. (Except for Defender Multi-Purpose Cartridge)

Air Purifying Respirators with filters provide respiratory protection against aerosols by removing dusts, mists, fumes, fibers and other particles.

### Particulate Respirator 8200

#### Particulate Respirator N95 8200

This economical disposable N95 particulate respirator is designed to help provide reliable worker respiratory protection against certain non-oil based particles.

### Particulate Welding Respirator

#### Particulate Respirator N95 8515

This economical N95 disposable particulate welding respirator helps provide respiratory protection for applications where metal fumes may be present. It features 3MTM Cool Flow™ Valve, braided headband and adjustable M-noseclip for added comfort.

### Particulate Respirator 8210

#### Particulate Respirator N95 8210

3M™ Particulate Respirator 8210, N95 is a disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non-oil based particles. This respirator is designed for use for particles such as those from grinding, sanding, sweeping, sawing, bagging, or other dusty operations.

### Particulate Respirator 8210v

#### Particulate Respirator N95 8210v

This disposable N95 particulate respirator featuring 3M™ Cool Flow™ Valve helps provide comfortable, reliable worker respiratory protection against certain non-oil based particles. Ideally suited for hot/dusty work settings or long periods of wear.

### Particle Dust Masks

Particulate Dust Masks DM1, DM2, and DM3 also available.

**DM1**  
Dust Mask  
Not NIOSH approved

50 per box / 12 boxes per case

**DM2**  
Dust Mask  
Conforms to NIOSH 42 CFR Part 84, N95 class

20 per box / 12 boxes per case

**DM3**  
Dust Mask with Exhale Valve  
Conforms to NIOSH 42 CFR Part 84, N95 class

Exhale Valve

10 per box / 12 boxes per case

DM3 w/ Exhale Valve

### 3M Fume Respirator 9925

Weld Mask

The 3M™ Welding Fume Particulate Respirator 9925 provides lightweight, effective, comfortable and hygienic respiratory protection against dust, mist and metal fumes and resist clogging for extended use against welding fume. These respirators have been designed specifically for welding applications to provide protection against ozone and welding fumes, plus relief from nuisance odours.

- 3M™ Cool Flow™ Valve: The Cool Flow valve reduces heat build-up to offer workers comfortable protection - even in hot and humid conditions.

- Robust Shell and Cup Design: Flame retardant outer surface minimises the effect of welding splatter, conforms well to most face shapes and sizes, maintains its shape well during use and is collapse-resistant.

## Face Shield, Head Gear and Adaptor

### Face Shield

Polycarbonate Cylinder Face Shield with holes.

### HGB / Head Gear Black

Pyramex HGB Features:

- Universal pegs will accommodate a wide variety of faceshields
- Ratchet style adjustment for easy fit
- Pivoting action allows user to lift faceshield while wearing

Face Shield Clear

HGB

Complete

### HHAA / Hard Hat Aluminum Adaptor

Aluminum Constructed from durable nylon with protective plastic coated tension spring. HHAA is dielectric constructed. Universal sizing fits on the brim of most hard hats and accommodates a variety of faceshields.

HHAA

## Hard Hats — HP14 Cap Style

- Shell constructed from High Density Polyethylene materials.
- Low profile design.
- Rain troughs on sides and back of helmet channel moisture away.
- Universal accessory slots fit cap mounted ear muffs and chin straps.
- Soft brow pad is replaceable and washable.
- Snap Lock suspension features "tuck away" adjustment for all day, hassle free wear.
- Ratchet suspension is easy to adjust — allows the wearer to modify the fit while wearing.
- Meets ANSI Z89.1-2003 standards, Type 1 — Class C, G and E.

Replacement suspensions and headbands available.

## Ear Plugs - Chorded and Unchorded

### Features/Benefits

- Expands to Fit Ear Canal
- Maximizes wearer protection.
- Foam Construction
- One size fits most. Lightweight, soft and comfortable. Non-toxic and non-irritating, disposable.
- Sealed Pouches

Available in cellophane and degradable paper. Maximum cleanliness, assures employees that plugs are unused.

- Available with Cord

More convenient to use, visible for safety checks.

## Uvex Limewire

### Product Description

Uvex Livewire delivers the fit performance and protection required in extreme environments protecting workers against intense wind sun dirt dust and debris as well as high heat and humidity. Uvex Livewire features Uvextreme Plus anti-fog lens coating for superior long-lasting fog-free vision that lasts up to 10X longer and provides 2X better scratch-resistance than competitive anti-fog coated products with a simple temple-to-headband exchange system that makes switching between temples or headband quick and easy.

### Features:

Unique ratcheting temples adjust lens angle by up to 15 degrees for customized fit, Padded temples provide ideal tension and flex for optimal comfort and fit, Precision-design foam subframe fits contours around the eyes to maximize fit and comfort, Upper and side channels in the frame for optimal venting and enhanced anti-fog performance, Uvextreme Plus lens coating for 10X longer anti-fog performance and 2X greater scratch resistance, Adjustable cloth headband included, Clear Lens - Ideal for most indoor work applications

Instinct Safety Glasses  
Matte Black Frame  
SCT-Gray Uvextreme Plus Lens

## Uvex Hypershock

### Product Description

Uvex Hypershock eyewear delivers the ultimate combination of high-performance protection and aggressive sport inspired styling. The full frame design offers high impact protection, with streamlined padded temples and a molded nosepiece for a secure, comfortable fit.

Offered in three frame colors and a wide variety of lens tints, Uvex Hypershock is available with Uvextreme Plus anti-fog lens coating for superior, long-lasting fog free vision that lasts up to 10X longer and provides 2X better scratch resistance than competitive anti-fog coated products.

### Uvex Hypershock Features:

Ideal for indoor and outdoor applications in construction, oil, gas & chemical, utilities, landscaping and manufacturing 100% dielectric. Can be worn in environments where accidental exposure to electrical charge is possible Meets the ANSI Z87.1-2010 standard

### Drybrow® sweatbands

#### AA-100 #22008

- Deluxe, full-size (8-5/8" long).
- Packaged 25/bag; individually sleeved for increased shelf life.

#### AA-101 #22009

- Packaged 100/bag (not individually sleeved).

#### AA-103 #22011

- Packaged 25/bag (not individually sleeved).

Keep cool and prevent perspiration from running into your eyes in hot, humid conditions with Allsafe Services & Materials specialized sweatbands.

#### DB-801 #22013

- Economy price range.
- Full-size (8-5/8" long).
- Packaged 100/bag (not individually sleeved).

#### DB-803 #22017

- Packaged 25/bag (not individually sleeved).

#### AA-102 #22010

- Deluxe clip-on, full-size (8-5/8" long).
- Fits on a hard hat, welding helmet or sand-blast hood.
- Packaged 25/bag (not individually sleeved).

### Eyewash Station

#### Haws 7501 Gravity Operated Portable Eyewash, 9 Gallon Capacity (Sterilize Additive Not Included)

Haws portable gravity operated eyewash shall include a FDA approved high-density green polyethylene 9 gallon tank, ABS plastic eyewash heads with 0.4 gpm flow rate over 15 minutes, yellow pull-down activation arm, integral handle on top, wide-fill threaded cap, label-mounted operating and maintenance instructions, and stainless steel wall bracket (unit must be hung). Tank comes complete with a wide-fill opening and threaded cap for quick inspection, cleaning, and filling. Unit also comes equipped with top and side handles making relocation simple. J-shaped stainless steel wall bracket makes for a well constructed portable mount for easy removal and re-mount.

#### Haws 9082 Sterile Bacteriostatic Preservative, For Use In Portable Eyewash Stations (Box of 4)

Through cold and chill, snow, rain and sleet, Allsafe Services & Materials offers the industry's most comprehensive line of thermal winterwear to give workers full protection from the elements. Our cap liners are made from the most technologically advanced fabrics that combine the best of performance features with a number of comfort options.

TEMPERATURE RANGE CODING	
	45° to 32°F or 8° to 0°C
	32° to 0°F or 0° to -20°C
	0° to -20°F or -20° to -28°C

The above suggested ranges are to assist in choosing an appropriate liner for various climates.

#### IMPORTANT

All models are flame retardant treated unless otherwise noted. Flame retardant treated models meet the Federal NFPA701 Standard

Flame resistance is the fabric's ability to self extinguish when exposed to flame or thermal ignition sources. Flame resistance is meaningful only when applied to the specific test method used to measure the characteristic.

### Thermal cap liners

#### 165 #22251

- Lightweight protection.
- 100% cotton.
- Napped flannel interior.
- Liner color may vary due to material availability.
- Standard pack 12.

#### 225 Plus #22298

- Blue quilted nylon shell with fastener straps.
- Three layers of thick foam.
- Meets 16 CFR 1610, Class I.
- Standard pack 12.

#### PYRAMEX BL111

- Protects head, face, and neck.
- Hinged cap allows for different types of wear
- Mesh face mask increases airflow and prevents fogging

#### 400 #22297

- Full head and neck coverage with extra-long nape and wrap-around collar.
- 100% cotton, denim exterior.
- Thick, sherpa lining for maximum warmth.
- Standard pack 3.

## Custom Logo Imprinting

- Custom logo design
- Screen printing
- Vinyl transfer (color, reflective silver or black)
- Fast turn around
- OEM custom apparel design (Please contact us for a quote)

Screen Printing Fee Per Logo:

Quantity ----> # of Colors ↓	Min. 12	100	200	500	1000
1	\$1.45	\$1.25	\$1.00	\$0.85	\$0.75
2	\$2.45	\$2.25	\$2.00	\$1.85	\$1.75
3	\$3.15	\$2.95	\$2.70	\$2.55	\$2.45
4	\$3.75	\$3.55	\$3.30	\$3.15	\$3.05

### Additional Costs

- Printing on Jackets requires special ink and much longer handling time. Please add \$1.50 to each above printing fees.
- LVM-O/S/HG and OVM-O/S/HG have bigger mesh holes and require frequent cleaning of the press. Please add 50 cents to each printing fees.
- Printing on the reflective tape requires special air dry ink & much longer handling time. The cost is \$2.5/logo.
- Screen Set-up Fee: \$20/Color for each logo
- Minimum Order Requirement: 12 pieces (\$20/color Small job fee if less than 12 pcs)
- Flash charge: 20 cents per flash application (required for multi-color logos with overlapping or bordering colors)
- Any color that requires white under base need to add 1 additional color plus flash charge

## Mesh Vest

Petra Roc Non-ANSI All Purpose Safety Vest, Polyester Mesh, Orange

**Features:**

- Light weight high visibility polyester mesh
- Without reflective tape
- Velcro® closure and elastic side bands
- Size: L/XL, 2X/3X

## Hi-Visibility T-Shirts

ANSI Class 2 Hi-Visibility T-Shirts Feature Light-weight Wicking Fabric For Lasting Comfort And Breathability During Long Outdoor Work.

**Features:**

- ANSI Class 2 Hi-Visibility
- Made with durable cotton and polyester.
- Two vertical and one 360° horizontal 2" reflective stripes.
- Pocket on left chest.

## Break Away Safety Vest

5 Point Breakaway Safety Vest ANSI Class 2 Lime Mesh. Meets ANSI 107-2010 certifications. 100% breathable, comfortable mesh safety vest.

**Features:**

- Fully Adjustable
- Breathable Lime Mesh
- 5 Point Break Away
- 2 Inside Pockets

## Class 3 Two Tone DOT Vest

ANSI/ISEA 107-2010 Class 3 Two Tone DOT Vest, Economy. Petra Roc 100% Polyester Safety Lime Mesh with 3" Orange Contrast Binding. Short sleeves with a 360° 2" silver reflective tapes.

**Features:**

- Zipper Front Closure
- Contrasting Trim
- Heavy Duty
- Size: L/XL, 2X/3X, 4X/5X

## Class 3 Vest, Lime Mesh

ANSI/ISEA 107-2010 CLASS 3 Vest, Lime Mesh Velcro Closure. Meets ANSI/ISEA 107 Class 3 Standard.

**Features:**

- 100% Polyester Safety Lime mesh
- (1) H-360° & (2) vertical 2" silver reflective tapes
- Short sleeves with a 360° 2" silver reflective tapes
- Front vertical velcro closure
- Microphone tab
- 2-3 outside Pockets
- Sizes available: S/M, L/XL, 2X/3X, 4X/5X

## LVM2-EC Lime Mesh

ANSI 107 Class II Lime Safety Vest /Zip Closure.

**Features:**

- Meets ANSI/ISEA 107 Class II Standard
- Safety Orange or Lime solid or Mesh fabric (old stock has contrasting trim)
- Zip front closures
- 2" silver reflective tapes
- (1) chest pocket
- Sizes available: S/M, L/XL, 2X/3X, 4X/5X

## Class 3 Jacket

LIME/BLACK TWO TONE ANSI/ISEA Class 3 Waterproof Bomber Jacket with Removable Liner

- Meets ANSI 107-2010 Class 3 Standard with 2" wide reflective stripes
- Fluorescent Poly Oxford with 300D PU coating & waterproof seams.
- Two tone design
- Removable Fleece Lining & Insulated Collar
- Heavy duty zipper front closure
- Rib knit stretch waist band & cuffs
- Removable hood tucks into the collar with draw string
- Sizes: S-5XL

## Hi Visibility Safety Pants

### Class E Mesh Safety Pants

Class E Two-Tone Mesh Safety Pants - Yellow/Lime. Applies to retro-reflective equipped pants or shorts, designed to be worn in combination with either Class 2 or Class 3 tops. When worn in this manner, the ensemble is rated as Performance Class 3.

**Features:**

- Breathable polyester mesh for maximum cool comfort
- 2" two tone tape for optimum visibility
- 2 side access pockets
- 1 back pocket
- Drawstring waist

## Carnie Cap™ Rebar Protective System

### WORKING AROUND REBAR JUST GOT SAFER

The Carnie Cap System is superior to any other rebar impalement protection available today. Unlike traditional rebar caps, which provide little or no impalement protection, the Carnie Cap System, when used properly, will withstand a 250-pound weight dropped from 10 feet without the rebar protruding.

### PUTTING A CAP ON COSTS

- Economical.
- Packaged 100 per box for additional savings.
- Made of rugged, sturdy and reusable plastic.
- Quick and easy to install.
- Eliminates costs associated with injuries and downtime from rebar impalement.

### CAP DANGEROUS REBAR ENDS

- Available for use on 2x4s and 2x6s.
- Fits rebar sizes #3-#9 and #5-#18.

### APPLICATIONS

- Works in vertical, incline and horizontal applications.
- Uses only 2 caps per each 8-foot span.
- Enables contractors to more efficiently use concrete blankets by utilizing the lumber as protective support so blankets don't become torn.

## GUARDRAIL SYSTEM

The Safety Boot® is a reusable base for constructing free-standing temporary guardrail and stair rail systems that exceeds OSHA standards.

- Free-standing and will remain in place throughout construction including drywall installation and inside finishing operations. No bracing is required.
- Anchors into most common subflooring materials, including concrete.
- Two 2x4's are inserted into the center core of the reusable base to form a strong, rigid post.
- Toeboards, which are required by OSHA, need no fasteners and drop directly into the slots on each Safety Boot.
- Reusable. When the permanent railings are installed, the posts with Safety Boots attached can be easily removed and reused at the next project.
- Design test data accompanies each order — ready for review by OSHA inspectors. Certified and signed by a professional engineer, documenting that the Safety Boot exceeds OSHA's guardrail strength standards.
- The one-piece molded construction of durable high-impact safety yellow polymer stands on a one-year replacement guarantee.

Easy-to-read text and illustrations in Spanish and English, enables the prime contractor/builder to have safe, dependable temporary guardrail systems constructed that meet OSHA standards on every jobsite, even when using different work crews.

Unguarded protruding steel reinforcing bars are hazardous. Even if you just stumble onto an un-guarded rebar you can impale yourself, resulting in serious internal injuries or death.

These rebar should be protected with caps so that a worker would not be injured by falling on them.

**BARGARD®** protector caps

**A-5 #23704**

- Fits rebars 3/8" to 3/4" diameter.
- Also fits inside 1" ID pipe.
- Standard package 200.

**A-10 #23700**

- Fits rebars 3/8" to 1-1/4" diameter.
- Also fits inside 1-3/4" ID pipe.
- Standard package 100.

**A-20 #23702**

- Fits rebars 1" to 2-1/4" diameter.
- Standard package 100.

**WARNING** – BarGard® caps are not designed or intended to provide impact or impalement protection. They are not a substitute for covering vertical reinforcing steel with timber, as recommended by OSHA, and are not recommended for use when protection from falls is required. For additional information on acceptable methods of guarding against impact or impalement, consult OSHA CFR TITLE 29, PART 19120, ANSI A10.9-1983, and your state regulations for specific requirements.

A-5 #23704

A-10 #23700

A-5 #23704

American Allsafe Bar Guard Rebar Cap - Square - Orange

**PC 110**

Only rebar caps designed to provide impalement protection, such as those containing steel reinforcement, should be used.

American Allsafe Bar Guard Rebar Cap - Mushroom Cap - Orange

**PC 100**

The OSHA Standard requires that rebar "be guarded to eliminate the hazard of impalement." Not all guards provide that level of protection. In some circumstances, the force of a fall can cause rebar to push clear through a plastic cap and still impale a worker, or the worker can be impaled by the rebar and the cap together.

Features:

- Reusable
- Weather resistant
- Brightly colored for good visibility

## EAGLE Flammable Storage Safety Cabinets

Keep flammable liquids near work areas in Eagle Safety Storage Cabinets. All are constructed of 18-gauge steel. Sides, top, bottom, and doors are doublewalled with a 1-1/2" air space between walls. Both vents, with 2" threaded fittings, have fire baffle and cap. Cabinets come in yellow gloss powder finish with red warning, plus grounding attachment, 3-point key lock and 2" raised, leakproof door sill. Each shelf is adjustable, supported by 4 brackets, and can support 350 pounds.

Model	Capacity	FM	Door Specs.	Size (W x D x H)	Weight

- 26434 BARRIER TAPE - CAUTION WET FLOOR - YELLOW

### Pennants

- Made of low density polyethylene.
- 9" x 13" triangular pennants on a 60' or 100' string.
- 60' string has approximately 36 flags, a 100' string has approximately 64 flags.
- 8" between each flag.
- Tensile strength - 107 lbs.
- Sold in standard package of 50 only.
- Alternating legends of: Danger Keep Out, Be Careful, Safety First, Danger Ahead and Safety Always on 0111744 ONLY.

0111615 PENNANT – PERIMETER MARKER MULTI-COLOR, 100'

### Barricades

- NCHRP-350 Certified with/without barricade lights.
- Meets MUTCD standards.
- Weighs only 15 lbs.
- Low Profile – Folded dimensions are 2.5" H x 24" W x 45.5" L.
- 12" x 24" top panels and 8" x 24" bottom panels afford maximum panel area for reflective sheeting, logos or stenciling.
- Engineer Grade or Hi Intensity Grade reflective sheeting available.
- Built-in bracket accommodates barricade light.
- Optional plastic Sand Ballast Bar for additional weight.
- Closed hinge feature prevents pinched fingers during placement and retrieval.

### Channelizer Drum

- Tested and certified to meet the crashworthy requirements of NCHRP-350 with and without lights.\*
  - Meets or exceeds all MUTCD specifications.
  - Accommodates barricade Type A or C lights.
  - Anti-Roll Drum design.
  - Base incorporates waffle pattern on bottom to eliminate "walking" or "creeping."
  - Tapered design enables nesting for storage or transport.
  - 1500 is constructed of impact-resistant, Linear Low-Density Polyethylene.
  - 1510 is constructed of Hi-Density Polyethylene.
- \*As confirmed by independent testing agency.

## Traffic Control Products

**Sizes:**

- Standard Sizes – as shown in your
- Federal or State MUTCD.
- Special Sizes – also available.

**Legends:**

- Standard Legends – from
- MUTCD.
- Special Legends – also available.

**Colors:**

- Standard Colors – as shown in your Federal or State MUTCD.
- Custom Colors must be specified correctly and may not be cancelled or returned after order is placed.

**Finishes:**

- BE Baked Enamel (non-reflective).
- EG Engineer Grade (reflective).
- HI High Intensity (reflective).
- DG Diamond Grade (reflective).

**Aluminum Thickness:**

- .063" 1/16" (approx.).
- .080" 5/64" (approx.).
- .090" 3/32" (approx.).
- .125" 1/8".

Special Thickness – request quote.  
Special Alloy – request quote.

**Mounting Holes:**

- Industry Standard – 3/8" mounting holes (1" on center) – all panels.
- Special Holes – must be specified correctly and may not be cancelled or returned once ordered.
- No Holes – specify on order.

**Corner Radii:**

- Industry Standard corner radii on all panels (radius determined by panel size).
- Special Corner Radius must be specified correctly and may not be cancelled or returned once ordered.

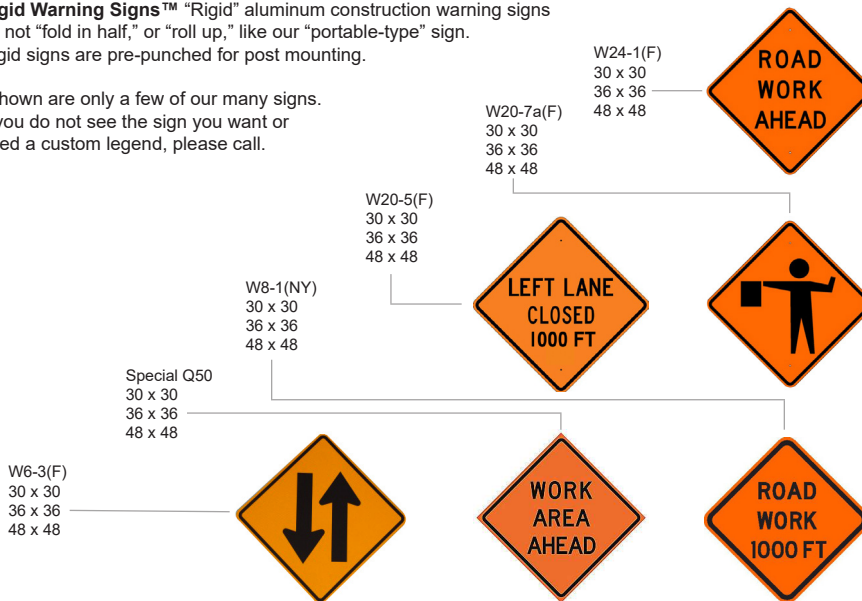

Square corners – specify on order.

**Note:**  
All custom requirements subject to additional charges.  
MUTCD – Manual of Uniform Traffic Control Devices for Streets and Highways.  
– the perfect reference tool.  
To confirm your specification requirements consult State or Local Government Representative.

## Construction Road Signs

**Rigid Warning Signs™** "Rigid" aluminum construction warning signs do not "fold in half," or "roll up," like our "portable-type" sign. Rigid signs are pre-punched for post mounting.

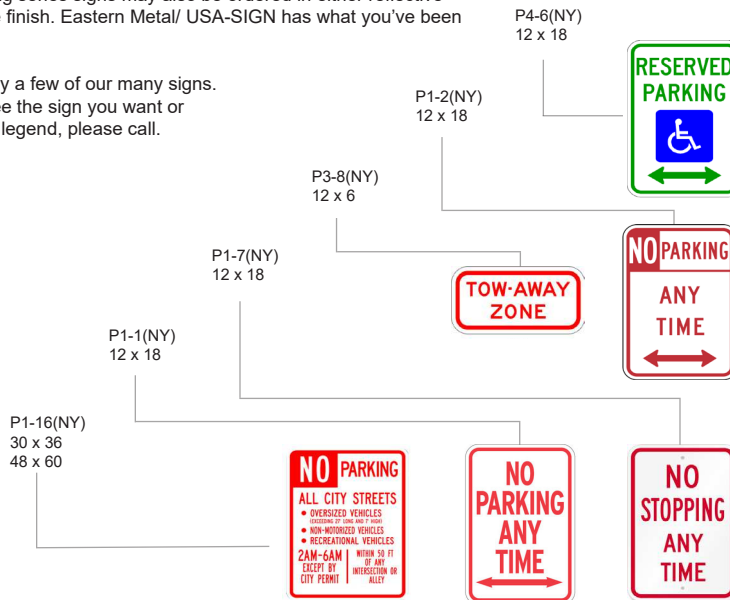

\*Shown are only a few of our many signs. If you do not see the sign you want or need a custom legend, please call.

## Parking Signs

**Parking Signs** are available in standard and non-standard (custom) legends. Parking series signs may also be ordered in either reflective or nonreflective finish. Eastern Metal/ USA-SIGN has what you've been looking for!

\*Shown are only a few of our many signs. If you do not see the sign you want or need a custom legend, please call.

**MANY MORE SIGNS AVAILABLE. NEED A CUSTOM LEGEND? PLEASE CALL**

### SUNDOWNER®

- Available in 6V or 12V battery configuration.
- 3-way or flashing models available.
- Photocell for automatic on-off by light conditions.
- Theft-proof bolts with custom socket.
- 360 degrees lens rotation.
- Improved lens for better visibility.
- Meets MUTCD requirements.
- ITE Certified.

### NIGHTFLASHER®

- Meets MUTCD requirements and ITE specs in 12 volt configuration.
- 7" polycarbonate lens with advanced optics.
- Dependable circuitry coated for protection against weather.
- High-density polyethylene case, UV stabilized, available in blue, green, orange, red, black, white and yellow.
- Lens colors available in red, green, amber, clear and blue.
- Optional solar cell extends battery life

### TRAILBOSS™ CHANNELIZER DRUM

- Tested and certified to meet the crashworthy requirements of NCHRP-350 with and without lights (As confirmed by independent testing agency).
- Meets or exceeds all MUTCD specifications.
- Five panels available for sheeting.
- Accommodates barricade Type A or C lights.
- Patented handle design allows for easy pickup, even when light is attached.
- Choice of three bases: 25 lb. and 35 lb. recycled rubber or plastic snap-on for use with sand-bag.
- Bases incorporate a waffle pattern on bottom to eliminate "walking" or "creeping."
- Anti-roll foot design.
- Tapered design enables nesting for storage or transport.
- Dimensions - 39.7" H x 20.5" W at base.

**NOTE:** TrailBoss™ Channelizer Drum Base sold separately

### SIGNAL LIGHT

#### MV-2-IND

Heavy-Duty, Industrial Quality

- Single 25 watt incandescent bulb.
- 90 to 100 flashes per minute.
- Single-point shock resistant mounting.
- Quiet belt drive for simplified maintenance.
- Anodized aluminum base.
- 10' Red power lead for easy installation.
- Available in 6, 12, 24, 36, 48 or 72 Volts DC. 2.2 amps @ 12 Vdc.
- Available in red, amber, blue, green, purple or clear acrylic dome.
- 7-5/8" high, 6" diameter, shipping weight - 3 lbs.

#### MV-LP

Low Profile Rotating Reflector Beacon

- Model MV-LP-P - Permanent 1-point bolt mount or 3-point screw mount.
- Model MV-LP-MAG - Magnetic mount with 10' cord and cigarette lighter plug.
- Single 25 watt incandescent bulb.
- 90 to 100 flashes per minute.
- Quiet belt drive for simplified maintenance.
- ABS corrosion proof base.
- 12 Volt DC available. 2.2 amps @ 12 Vdc.
- Available in red, amber, blue, green, purple or clear dome.

## MILLER

by Honeywell

### Black Rhino Series

**Miller CFL-4-Z7/9FT Black Rhino**  
9-Foot Self-Retracting Lifeline with Steel Swivel and Twist Lock Carabiner, Black

**Miller CFL-5-Z7/9FT Black Rhino**  
9-Foot Self-Retracting Lifeline with Steel Swivel and Locking Rebar Hook, Black

### Falcon Series

**Miller MP20G-Z7/20FT Falcon** 20-Foot Galvanized Rope Self-Retracting Lifeline with Tagline and Carabiner, Red

**Miller MP30G-Z7/30ft Falcon** 30-ft. (10 m) galvanized wire rope (3/16-in. [5 mm]) with tagline and carabiner

**Miller MP50-Z7/50FT Falcon** 50-ft. (15 m) galvanized wire rope (3/16-in. [5 mm]) with tagline and carabiner

### Scorpion Series

**Miller PFL-4Z7/9FT** The lightweight, compact design of the 9 ft. (2.7 m) Miller Scorpion Personal Fall Limiter provides workers an affordable alternative to shock-absorbing lanyards. In a head-to-head comparison with shock-absorbing lanyards, the Scorpion web retractable requires less fall clearance, offers greater mobility and prevents tripping hazards.

## Mighty Lite Series

### Miller RL20G/20FT MightyLite 20-Foot Galvanized Wire Rope Self-Retracting Lifeline with Tagline and Carabiner, Red

- Double-swivel design allows for greater maneuverability while preventing the lifeline from twisting or kinking
- Consistent Spring Tension Regardless Of The Amount Of Wire Rope Or Webbing In Use
- Quick-activating inertia brakes limit a free fall to less than two feet
- Corrosion-resistant stainless steel and aluminum components promote longer service life
- Narrow payout port prevents intrusion of foreign debris

**MIGHTY  
LITE**

### Miller RL20G/30FT MightyLite 20-Foot Galvanized Wire Rope Self-Retracting Lifeline with Tagline and Carabiner, Red

- Durable and dependable, corrosion-resistant stainless steel and aluminum housing
- No annual factory recertification required\* – lowers cost of ownership and increases productivity
- Ideal for hard-to-mount locations
- Corrosion-resistant stainless steel and aluminum components extend service life
- Carabiner and tagline included\*\*
- Rated to 400 lbs. (181.4 kg) capacity when using a SofStop shock absorber (928LS/18INYL)

### Miller RL50G-Z7LE/50FT By Honeywell Self-Retracting Lifeline (50ft, 310 lbs).

Self-Retracting Lifeline, Length 50 ft., Line Material Galvanized Steel, Housing Material Aluminum, Stainless Steel, Weight Capacity 310 lb., Visual Load Indicator Yes, Cable Dia. 3/16 In., Strap Width 1 In., Number of Legs 1, Locking Anchorage Connection Hook Type Twist-Lock Carabiner with Swivel Shackle, Anchorage Hook Gate Opening 3/4 In., Locking Harness Connection Hook Type Swivel Snap Hook, Harness Hook Gate Opening 3/4 In., Tensile Strength 5, 000 lb., Color Red

## Miller Spertian 650T

### HP™ Harnesses, MILLER BY SPERIAN 650T/UGK

- Durable, lightweight nylon or polyester webbing
- New DuPont PTFE webbing finish provides superior protection and extends product service life
- Bright colors make the HP harnesses readily visible and easy to inspect
- Back strap prevents user from falling out of the harness
- Lanyard ring allows user to attach lanyard when not in use
- Friction buckle shoulder straps
- Sub-pelvic strap
- Mating buckle leg strap
- Mating buckle chest strap

Retractable Lifelines

CONSTRUCTION SAFETY

## Feather

### Lower Mid-Range Full Body Harness

The original harness remains a popular choice today thanks to its X-plate D-ring assembly, designed to help reduce tangles and lies flat on the user's back. From pass thru chest connection to grommet or pass thru leg straps to additional D-rings, a variety of hardware configurations are available. For more information contact a sales representative.

Product #	Size	Description	Capacity
1050	Universal	Back D-ring w/ 1D Ring	310 lbs.
1053	XL	Shoulder Front and Back D-ring	310 lbs.

## Apache

### Specialty Full Body Harness

The Apache Harness is engineered and manufactured for workers who have a 311 lbs. – 400 lbs. total working weight. The harness must be used with a 400 lbs. rated connecting device. It's equipped with a pass thru chest connection and grommet leg connection.

Product #	Size	Description	Capacity
1710	XXL	Back D-ring	400 lbs.

## Wind Energy

### Specialty Full Body Harness

Tower Climbing Fall Protection Harness with Quick Connect Buckle Chest Connection and Leg Connection, Back, Front, Side and Seat D-rings and padded positioning belt with toolbelt holder and seat sling for climbing application. Lanyard keepers and web keepers.

Product #	Size	Description	Capacity
1515	XL	---	310 lbs.

## Exofit Srata

### Full Body Harness

Load distribution system redirects weight away from shoulders. PolarMesh padding for breathability and EZ-Link SRL adapter for quick connections and disconnections.

Product #	Size	Description	Capacity
1112536	M	Side and Back D-ring	420 lbs.
1112537	L	Side and Back D-ring	420 lbs.

## Safelight

### Entry-Level Full Body Harness

A lightweight and economical fall arrest harness, the SafeLight delivers quality construction designed for general fall arrest applications. The SafeLight harness is an excellent entry-level harness choice that is affordable and easy to use. It's equipped with a pass thru chest connection and grommet leg connection.

Product #	Size	Description	Capacity
10910	Universal	Back D-ring	310 lbs.
10911	Universal	Side and Back D-ring	310 lbs.
10951	Universal	Side and Back D-ring	310 lbs.

## Ameba

### Upper Mid-Range Full Body Harness

The Ameba harness features a webbing uniquely designed to flex and bend with the wearer for non-binding comfort. The Ameba harness maintains its shape and integrity over time. Its soft mesh backpad helps wick moisture away from the body for a cooler, more comfortable experience.

Product #	Size	Description	Capacity
A1410	XXL	D-ring	310 lbs.
A1411	XXL	Side and Back D-ring	310lbs.

## Protecta First

### Full Body Harness

5-point harness with back D-ring, tongue buckle legs, and pass-thru buckle connectors for legs and chest. Lightweight harness weighs 1.70 pounds.

Product #	Size	Description	Capacity
AB17550	Universal	Back D-Ring	310 lbs.

## Protecta PRO

### Full Body Harness

Integrated hip and shoulder pads for comfort. Durable polyester web. Built-in impact indicators. Tongue buckle leg straps.

Product #	Size	Description	Capacity
1191209	M	Back D-ring	420 lbs.
1191210	XL	Side and Back D-ring	420lbs.

## THUNDERBOLT™ Retractable Lifelines

The Thunderbolt series of Retractable Lifelines is constructed with a high impact antishock polymer casing, which prevents denting and is durable yet lightweight. The unique ratcheting design ensures reliability and longevity under even the most difficult environments. Available in 3/16" galvanized steel cable. The compact size and lightweight features of the Thunderbolt series ensure Ergonomic solution to difficult equipment handling.

Additional lengths available, carabiner included.

## RLD Series

ITEM	LENGTH	WEIGHT
RLD-30	30'	8.0 lbs.
RLD-50	50'	15.8 lbs.

## 3M ReLoad Retractable Lifeline Series

SafeWaze has combined innovative engineering, superior materials, futuristic design and quick-turn maintenance to provide the most advanced retractable on the market. Traditional retractables utilize similar but dated technology resulting in inconsistent performance with A frictionless braking system, with no moving parts, that won't go out of adjustment. Individual components removed and replaced within minutes due to modular design 100% reliable Full Contact™ locking mechanism that cannot freeze, hang up or corrode. Stainless steel component construction Impact modified nylon case protects internal chassis.

REW-23

## REW Series

ITEM	LENGTH	WEIGHT CAPACITY
REW - 7	7ft	310 lbs.
REW - 23	23ft	310 lbs.

## Protecta Rebel Self-Retracting Lifeline

Rebel™ self retracting lifelines (SRL) with super-tough yet lightweight composite housings are built to last providing an economical fall protection solution without compromising performance or safety. These Rebel™ SRL's feature a 310 pound (141 kg) user capacity, and a robust design to ensure longevity. Rebel™ is designed with the worker in mind, featuring a stackable space-maximizing design, high strength web lifeline and a built-in swiveling anchorage point. An SRL's lifeline will extend as the user moves away, and retract automatically enabling the user to move about within a recommended working area at normal speeds. Should a fall occur, a speed sensing brake system will activate stopping the fall and reducing the forces imposed on the user to safe levels.

ITEM	LENGTH	WEIGHT CAPACITY
3100425	11ft	310 lbs.
3590517	20ft	420 lbs.
3590500	33ft	420lbs.
3590550	50ft	420lbs.

3104425

## MS SERIES™ Retractable Lifelines

The lightweight MS-11 utilizes the tangle-free swivel top and comes with a lightweight aluminum snaphook.

Additional lengths available, carabiner included.

## MS Series

ITEM	LENGTH	WEIGHT	HOUSING
MS-11	11'	3.5 lbs.	Metal Alloy

## Nano-Lok Edge Twin Leg Self-Retracting Lifeline

Nano-Lok edge is specifically designed for foot level tie-off and sharp edge applications often found in construction It is ergonomically designed for ease-of-use and is ideal for direct connection to most harnesses The extremely compact and lightweight design is virtually unnoticeable on your back, staying out of the worker's way and making it ideal as a lanyard replacement Whether your application requires single or twin leg configurations, mounting to an overhead anchor or for connection directly to harness, there are numerous models to choose from to suit almost any application Nano-Lok locks quickly—stopping a fall within inches—providing more protection at low heights In addition, tension is always kept on the lifeline, which reduces dragging, snapping and trip falls.

ITEM	LENGTH	DESCRIPTION	WT. CAPACITY
3500225	8ft	Steel snap hooks	310 lbs.
3500227	8ft	Steel locking rebar hooks	310 lbs.

3500225

3500227

### DBI-SALA Reusable Concrete Anchor

- Used in cured concrete with at least 3,000lb compression strength.
- 3/4" drill hole.
- Used in walls and ceilings.
- Corrosion-resistant stainless steel/aluminum.
- Swiveling D-ring tie-off.
- Exclusive easy-grip trigger
- Shielded load and chock release cables
- Breaking strength: 5,000 lbs.

### SAFECLAW™ Reusable Anchor

The only removable/reusable anchor point for concrete applications. The SafeClaw™ is a state-of-the-art single-point fall protection removable anchor point. The SafeClaw is ideal for quick and easy tie-off applications where no suitable alternatives are available. Additional features include:

- Greater freedom of movement and durability than competitive products.
- Easy-to-use and remove.
- Safe, portable and reusable.
- Made of heavy-duty stainless steel and other non-corrosive materials.
- High load capacity.
- Designed for a wide range of applications, including lifting, vertical and overhead ceilings, as well as an array of lifeline usage.

### 4015 Fall Protection Anchor

- 5/8" drill hole, 3" deep.
- Trigger release.
- Tie-off eye.
- Meets ANSI Z359.1.
- Strength: 5,000 lbs.

### GLYDER 2 Anchor

Sliding beam anchor systems provide complete horizontal mobility and can be tied-off overhead or at feet (use with Force2 shock absorbing lanyard when used at feet). The anchor effortlessly slides across the beam on its wear pads, eliminating metal-to-metal contact.

### BEAMWALK™ Anchor

The BeamWalk™ is the newest generation of single-point anchorage for I and H beam applications. The system is lightweight and extremely portable. This unit can be mounted either on top or below the beam.

### 4650-3 BEAMWALK

- Double action release for safety "No Slips".
- Easy one-hand adjustable feature.
- Low friction design.
- Lightweight.
- User friendly.
- Ergonomic hand position.
- Fits I and H beam 3-1/2" to 12", beam thickness up to 1-1/4".
- Tie-off eye.
- Weight Rating - 5,000 lbs.
- Stainless steel locking springs.

### Anchor Points **RATED AT 5000 LBS.**

#### 4000 REUSABLE ROOF ANCHOR

- Constructed of heavy gauge steel, ideally suited for roofing applications. Hinge construction gives flexibility to any pitch angle.
- Approved for use on sheet metal decking.

#### 4007 GIRDER GRIP

- Mobile anchorage point for metal structures. Can be used vertically or horizontally. Fits 3/4" diameter hole.

#### 4651X ROOF GRIP™

- Disposable roof anchor is easy to install and use.

### Rope / Cable Grabs

#### 122 COMBO ROPE GRAB

- 5/8" and 3/4" rope (synthetic only).
- Stainless steel construction.

#### 99-0120 SELF-TRAILING CABLE GRAB

- Stainless steel construction.
- Fits 3/8" and 5/16" cable (galvanized or stainless).
- Extremely durable.

## ENERGY ABSORBING LANYARDS

This entry-level 6-foot low-profile (tubular) lanyard. Designed for general-purpose work environments.

### 209712

Safelight Energy-Absorbing Lanyard

### 209712-0241

Safelight Energy-Absorbing Dual-Leg Lanyard

## SHOCK ABSORBING LANYARDS

4.5-foot lanyards expand to 6 feet. Shock absorbing action limits arresting forces to 900 lbs.

### 1340101

Pro Stretch Style Shock-Absorbing Lanyard

### 1340121

Pro Stretch Style Shock-Absorbing Lanyard

### 1340161

Pro Stretch Style Dual-Leg Shock-Absorbing Lanyard

## EXTENDER

### D-RING EXTENSION

- 5550 Double locking snaphook on one end, D-ring on the other, 18" length.

## CHAIN ASSEMBLIES

### SP3710-S CHAIN ASSEMBLY

- SP3710-S 13-link swivel assembly with new swivel rebar hook and standard locking snap hooks.

### PROTECTA FIRST REBAR CHAIN ASSEMBLY

- 1350200 5.0 machine chain with zinc-plated stamped steel hooks. Double-locking snap hook accommodates up to #18 rebar.

## CARABINERS

### Saflok Carabiner

- 2000113 3,600 lb self-closing/locking gate. Zinc plated for corrosion resistance. 5,000 lb breaking strength

## ROOFING KITS

SafeWaze has developed a creative assortment of Fall Protection. Roofing Kits. Portable and convenient, these safety kits are designed to meet any roofing application. The handy tool bags can be customized with individual distributor or end-user information.

20503

### Specifications

Category	Fall protection
Category	Kits
Connector	Snap Hook
Features	External Shock Absorber
Harness Size	Universal
Kit Type	Roofing
Lanyard Length	3 Linear Foot

## TEMPORARY HORIZONTAL LIFELINE

3M™ Two Man Horizontal Lifeline Systems are a complete temporary lifeline in a bag. Optional lifelines include cable and rope systems. All systems are portable and include a tensioning device to help with proper lifeline tension.

## CROSS ARM STRAPS

Fall protection cross arm straps are a low cost general purpose anchor designed to wrap around structures.

**4550** - 3ft Cross Arm Strap

**4824** - 4ft Cross Arm Strap

**AJ450A** - 3ft Tie-Off Adaptor  
**AJ450A6** - 6ft Tie-Off Adaptor

**4550U** - 6ft Heavy Duty Cross Arm Strap

Be prepared for fast response with a SpillTech® Universal Spill Kit! Spills happen no matter how hard you try to avoid them. Forklifts knock over drums, tanks are punctured and transporters leak and drip. It is important to have the right sorbents on-hand when these spills occur to eliminate the slip-and-fall hazard. A quick response is the first order of business — and your best weapon — in the fight against spills. SpillTech® Spill Kits are packed with quality SpillTech® Products to help you clean up fast and comply with regulations.

### Spill Kit SPKU5

Qty	Pkg	Description	Size	SpillTech Item #

Flow rate performance verified by CEESI in accordance with AMCA STD 210.85. \*UL & CUL Listed

This metal circular ring will allow you to connect multiple sections of duct.

Model Coupler  
**8000** 8"  
**1200** 12"

This duct hose, made of flexible, light duty vinyl woven polyester is designed to collapse into its own attached carrying bag

Model Size  
**Bag-O-Duct-1225** 12" x 25'

## Ventilator Accessories

Lightweight (9 lb.) plastic attachment for wet carpet and floor drying applications. Constructed with built-in handle for easy transport. Connects with supplied bungee cord.

Model  
**CDA-3000** (VAF-3000 only)

Flexible, light-duty vinyl woven polyester ducts are easily retractable and designed to handle large volumes of air.

**Model Duct with Quick Connect**

**0815** 8" x 15'  
**0825** 8" x 25'  
**1215** 12" x 15'  
**1225** 12" x 25'  
**1225-SC** 12" x 25'  
**2025** 20" x 25'

Metal rack is perfect for safe duct storage – up to two 15' ducts or one 25' duct.

Model Holds Duct Size  
**DSR-28-08** 8" diameter  
**DSR-25-12** 12" diameter
